|                                     |                                |
|-------------------------------------|--------------------------------|
| Ammoniak (Ammonia)                  | NH <sub>3</sub>                |
| Benzen (Benzene)                    | C <sub>6</sub> H <sub>6</sub>  |
| Brom (Bromine)                      | Br <sub>2</sub>                |
| Kuldioxid (Carbon Dioxide)          | CO <sub>2</sub>                |
| Kulilte (Carbon Monoxide)           | CO                             |
| Klor (Chlorine)                     | Cl <sub>2</sub>                |
| Klordioxid (Chlorine Dioxide)       | ClO <sub>2</sub>               |
| Fluor (Fluorine)                    | F <sub>2</sub>                 |
| Hydrogen (Hydrogen)                 | H <sub>2</sub>                 |
| Hydrogen Bromid (Hydrogen Bromide)  | HBr                            |
| Hydrogenklorid (Hydrogen Chloride)  | HCl                            |
| Hydrogencyanid (Hydrogen Cyanide)   | HCN                            |
| Hydrogenfluorid (Hydrogen Fluoride) | HF                             |
| Hydrogensulfid (Hydrogen Sulfide)   | H <sub>2</sub> S               |
| Metan (Methane)                     | CH <sub>4</sub>                |
| Saltpetersyre (Nitric Acid)         | HNO <sub>3</sub>               |
| Nitrogenoxid (Nitric Oxide)         | NO                             |
| Nitrogen (Nitrogen)                 | N <sub>2</sub>                 |
| Nitrogendioxid (Nitrogen Dioxide)   | NO <sub>2</sub>                |
| Ilt (Oxygen)                        | O <sub>2</sub>                 |
| Ozon (Ozone)                        | O <sub>3</sub>                 |
| Phosgen (Phosgene)                  | COCl <sub>2</sub>              |
| Fosfin (Phosphine)                  | PH <sub>3</sub>                |
| Svoeldioxid (Sulfur Dioxide)        | SO <sub>2</sub>                |
| Svoavlsyre (Sulfuric Acid)          | H <sub>2</sub> SO <sub>4</sub> |
